SUMMARY

Full Stack Web Developer with professional experience in building responsive and scalable web applications using React.js, Next.js, Angular, Node.js, Express.js, MySQL, and MongoDB. Currently working at I-Planet BPO Pvt. Ltd., developing business applications and admin dashboards. Skilled in REST API development, authentication systems, database integration, and performance optimization. Experienced in application deployment on Linux VPS servers using Nginx and PM2, Docker containerization, SSL setup, domain management, SEO optimization, and modern web development workflows.

EXPERIENCE

I-Planet BPO Pvt. Ltd. - Full Stack Web Developer

July 02, 2025 – Present

- Developed and maintained dynamic web applications using React.js, Next.js, Angular, Node.js, Express.js, and MySQL.
- Collaborated with cross-functional teams to design responsive and optimized interfaces.
- Ensured smooth backend integration with REST APIs and managed database operations using MySQL and MongoDB.

Projects:

1. Iplanet BPO:

- Developed the company's official website with an integrated admin dashboard.
- Admins can view, select, and manage job applicants efficiently.
- Improved site performance and SEO optimization for better online presence.
- Visit - <https://iplanetbpo.net/>

2. IplanetAgentsDesk (Internal Product):

- Built a full-featured web platform for company agents to manage energy forms, view bills, and handle customer data.
- Created separate user and admin roles with CRUD functionalities for efficient data management.
- Implemented authentication, role-based access control, and responsive UI for seamless usage across devices.
- Visit – <https://iplanetagentsdesk.com/3>

3. Procallhub:

- Developed and deployed a responsive business web application using modern web technologies.
- Implemented secure Authentication and Authorization for users and administrators.
- Built separate User Dashboard and Admin Dashboard with role-based access control.
- Developed application management and data handling features for efficient workflow management.
- Designed responsive and mobile-friendly UI with performance optimization and clean user experience.
- Integrated backend APIs and database operations for real-time data management.

4. Precision Career Connect (Job Portal):

- Developed a scalable job portal platform for recruiters and job seekers.
- Implemented authentication, admin dashboard, candidate application management, and recruiter workflows.
- Built responsive frontend interfaces and integrated backend APIs with database management.
- Integrated an AI-powered Resume Builder feature to help users generate professional resumes dynamically.
- Optimized SEO, performance, and overall user experience.
- Website: <https://precisioncareerconnect.com>

5. Swift Response Alert:

- Developed and deployed a responsive medical alert service platform for senior safety and emergency response solutions.
- Implemented secure Authentication, User Dashboard, and Admin Dashboard with role-based access control.
- Built product management, inquiry handling, and customer support workflows with database integration.
- Developed REST APIs and optimized frontend performance for a smooth user experience across devices.
- Integrated SEO-friendly architecture, responsive design, and scalable full-stack features for business operations.

6. Portfolio Website:

- Developed a modern and responsive portfolio website using React.js and Tailwind CSS.
- Showcased technical skills, projects, and educational background with interactive UI components.
- Implemented smooth animations and responsive design for better user experience.
- Visit - <https://himanshu-vishwakarma.vercel.app/>

7. To-Do List Application:

- Built a responsive task management application using Angular v19.
- Implemented add/delete task functionality with searching and sorting features.
- Used local storage for session persistence and improved user experience.
- Designed a clean and responsive UI for desktop and mobile devices.
- Visit - <https://todo-on-angular.vercel.app/>
